

Move & Sort Products Positions in Categories and Brands Pages

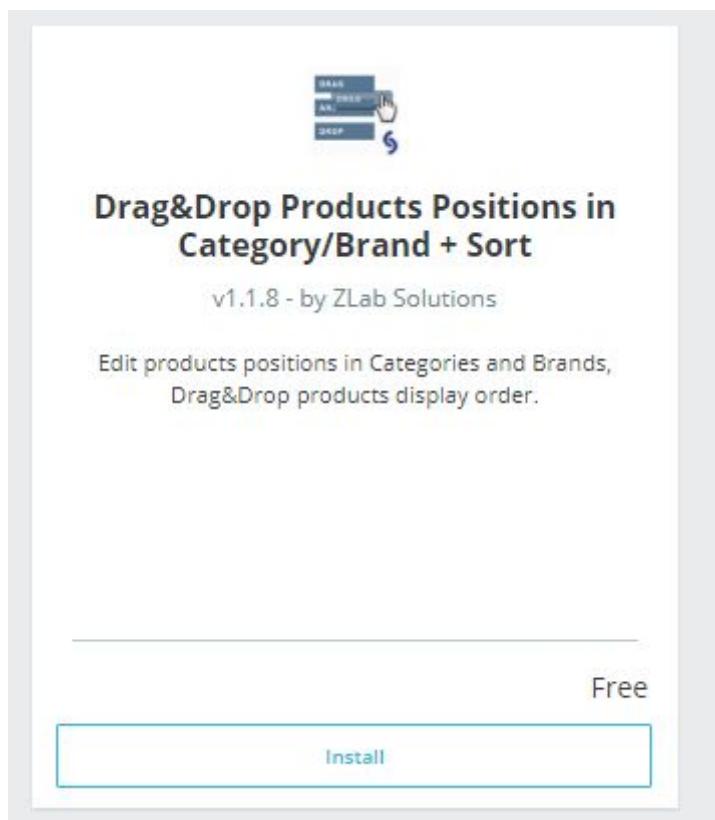

Prestashop Module

DESCRIPTION

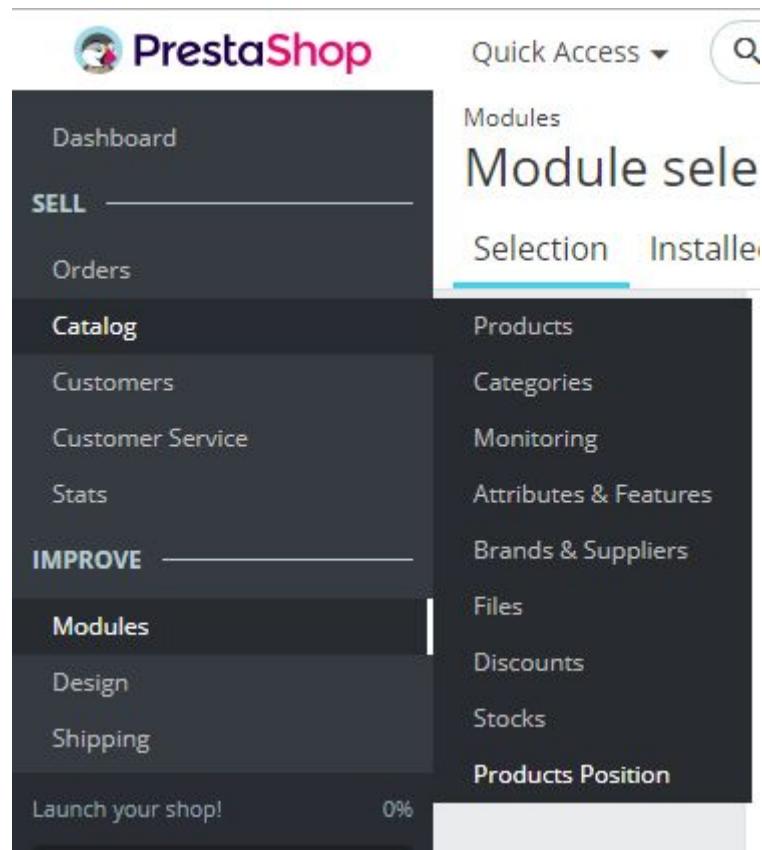

Edit products positions in Categories and Brands, Drag&Drop products display order by mouse. Sort products by position, stock(quantity), name, price, date update, and ID.

INSTALLATION

1. Upload module to your shop (module will be auto installed in ps > 1.7.0) or sign in to your Prestashop Addons account in admin panel and click install.

2. For ps 1.5-1.6: choose not installed modules and filter by author "ZLab Solutions". Click "install".
3. You can access the module interface by clicking "configure" over module or clicking tab "Catalog" -> "Product Positions" in main menu.

4. You have to set shop “default display order” to “Position inside category”. You can change this option in products settings tab or in module settings.

HOW TO EDIT CATEGORIES AND MANUFACTURERS DISPLAY ORDER

1. Select which page you want to edit - category or manufacturer

2. Select category or manufacturer to edit
3. Choose sorting order and order way if needed
4. Click “Show Products”
5. Change order by mouse drag and drop, or by clicking right click on product, enter position, and save it.
6. Click save new position
7. Do not forget to clear cache if you do not see new positions in front.
