

FME MODULES

A screenshot of a Prestashop module page. The top bar is blue with the word 'PRESTASHOP' on the left and the FME logo on the right. The main content area has a light blue background. In the center is a large white circle containing a blue icon of two interlocking arrows forming a loop. Below this icon is a dark blue horizontal bar with the text 'SEO INTERNAL LINKING' in white. The overall design is clean and modern.

PRESTASHOP 1.6.x To 1.7.x MODULE

USER GUIDE 1.0

INTENDED AUDIENCE

The content of this document is designed to facilitate the users - managers, supervisors, and others of the **SEO Internal Linking** PrestaShop Module. A step by step instruction has been added to this document to help users to install the module on PrestaShop.

This extension will only work on the PrestaShop version 1.6.x to 1.7.x. As a safe practice always backup your files and database before installing any module on PrestaShop. If you are looking for someone to install the module, we can do it for you as well. Just go to the following link and let support know the order id to expedite the installation process.

Once you have installed please see the User Guide to help you understand how to use the module to its full capacity. If you still have questions feel free to contact us on the support platform where you bought this module.

If you have any custom requirements feel free to touch base with us.

4. [Clear Cache](#) in [Advance Parameters](#) → [Performance](#)

USER GUIDE

How To ADD/EDIT INTERNAL LINKING RULES

At the back office, go to **SEO INTERNAL LINKING > SEO Internal Linking**. Here you will find all the internal linking rules in a grid. Click on **+** to Continue.

ID	Title	Enabled	Action
1	Go pro	Yes	Edit
2	Giga Bytes	Yes	Edit
3	Dispatched	Yes	Edit

Here you will have to provide the following information to create internal link.

ADD/EDIT SEO INTERNAL LINKING

- **Status**
- **Title:** This will be also used as the title attribute of href tag.
- **Link Color:** This will be the color of href tag.
- **Open in new window**
- **Add Nofollow**
- **Number of replacements:** Number of replacements per page, if this value is 1 then only first found text will be linked.
- **Target Page Types**
 - Home Page
 - CMS Pages

- Product Pages
- Category Pages
- **Target Link:** It will be used as link for href tag.
- **Keywords:** To add words, write something, and then press the "Enter" key OR comma.
