EDIT PHONE RULE

Country name	Allemagne
Iso code	DE
Prefix	49
Fixe rule	3 4 5 6 7 8 9 10 11 12
Number of digits allowed, if multiple values, separate them by "   "	
Mobile Rule	3 4 5 6 7 8 9 10 11 12
Number of digits allowed, if multiple values, separate them by "   "	
Active	<input type="button" value="YES"/> YES <input type="button" value="NO"/>
Cancel	Save

- 1) 2) Enter the rule for phones, the number must correspond to the number of authorized digits, example for France:  
Prefix = +33, rule = 9  
Valid number = +33XXXXXXXXXX  
If several values, separate them by « | »
- 3) Save.
